REPORT

As final preparations commence to launch new websites for the District and schools, I will give the School Board an update on what the process was to both find a new website content management system and redesign the district's 26 websites.

The presentation will discuss the factors that influenced the project, including compliance with the Americans with Disabilities Act, and outline the changes from the current websites to the new ones. In addition, there will be a demonstration of some of the new websites and their features. I will also provide a timeline for the launch of the new websites.
