REPORT

The 2015-16 school year was the culmination of our district's five-year Strategic Plan, Pathway to Excellence. A primary goal for the re-draft was to create a plan that was focused on fewer objectives centered around our aspirations to personalize the educational experience for our students to ensure every student will success and thrive in the classroom, and to ensure our students grow in their social and emotional maturity.

The new plan is focused on two areas: personalized learning, and culture and climate for staff and students. Since the personalized learning update occurred on March 2, we wish to update you on the progress that the culture and climate groups have implemented thus far toward our 2016-17 goals and priority statements.
