REPORT

Formal guidelines and procedures are necessary to ensure the school system responds to the health needs of students in a legal and efficient manner. Policies 504 and 510.1 have been reviewed and revised to reflect updates in Minnesota Statute and current school practices and procedures. Our first reading occurred on August 9 with dialogue and direction from the Board; Assistant Superintendent Johnson solicited input from principals and assistant principals, then refined the editing with the assistance of our legal counsel. Johnson then edited the policy after individual conversations and communication with Board members. Select administrative representation will be present. Administration seeks approval this evening for these two policies.
