REPORT

The following report contains information regarding assessment data for the South Washington County School District. The presentation focuses on the Spring 2018 Minnesota Comprehensive Assessment data, data that will be used to measure the implementation of the strategic plan, "Together We Are SoWashCo," and data related to the new accountability system in Minnesota, "North Star."

Overall, the South Washington County School District is thrilled to see high academic performance data compared to similar districts and the state of Minnesota. We continue to pursue efforts to close achievement gaps that persist in our system.

Included in this report is information collected from the SoWashCo Student Climate & Culture Survey in the spring of 2017 that is being used to help us monitor implementation of efforts to improve climate and culture in our district.
