## REPORT

The following report contains information regarding assessment data for the South Washington County School District. The presentation focuses on the Spring 2017 Minnesota Comprehensive Assessment data, the ACT Plus Writing test for the graduating class of 2017, and data that will be used to measure the implementation of the strategic plan, "Together We Are SoWashCo."

Overall, the South Washington County School District is thrilled to see high academic performance data compared to similar districts, the state of Minnesota and nationally. We continue to pursue efforts to close achievement gaps that persist in our system.

Included in this report is information collected from the Minnesota Student Survey in the spring of 2016 that will be used to help us monitor implementation of efforts to improve climate and culture in our district.
