

Technology and integration update

THE EFFECTIVE USE OF SEESAW

October 18th
2017

Tonight we will share

- Grounding of the work from last year with Pre-K and K
- Outcome from summer grade 1 and 2 curriculum work
- Personalized training for all 1st and 2nd grade teachers
- Highlights of the work this fall
- Voice of the teachers

Summer work from 2016-2017

- **Seesaw Pilot in Pre-K and Kindergarten**
 - Supports Standards based instruction and the Progress Report
 - Digital collection of authentic learning from students
 - Real time parent connection to the classroom
- **Seesaw expansion to 1st/2nd Grade**
 - Supports Standards based instruction and the Progress Report
 - Digital collection of authentic learning from students
 - Real time parent connection to the classroom

Personalized training for all teachers

- **Technology mentoring program design:**
 - Human centered approach
 - Personalized instruction
 - Information delivered in a small group setting
 - Ongoing support
 - In classroom support

Guest Teachers

- **Katie LaFleur**
 - Elementary Tech Coach
 - Liberty Ridge Elementary
- **Ginger Garry**
 - 2nd Grade Teacher
 - Middleton Elementary

WHAT TEACHERS ARE SAYING:

Learning is visible for all.

I loved the small group training. I got exactly what I needed. I could be selfish with my learning!

I'm excited to align seesaw with our progress reports.

Let's get parents connected so they can really SEE all the exciting learning in school!

It's a quick simple way to show evidence of learning.

What parents are saying

*"We love the program! Our son enjoys showing us his work and his classroom. As a parent it makes me feel more connected to his daily life at school. The seesaw posts spark fun conversations. I hope more teachers use Seesaw."
- CGES Parent*

Thank you!

- Thank you for supporting technology initiatives. Effective use of technology is an integral part of the District 833 Strategic plan.
