### REPORT

Central Park is a multi-use indoor park that was constructed in 2002 and provides a focal point that establishes the City Center areas as the heart of Woodbury. The park links to the Washington County R.H. Stafford Branch Library, the YMCA, and houses School District 833 Early Childhood Family Education and the Great Rivers Adult Education Consortium.

Nearly 17 years for Central Park and 13 years for the YMCA have passed without any major updates to the facility. Since that time, the population has nearly doubled and the City and its resident needs continue to grow and change. Oftentimes, there is conflicting needs for gathering space, programming, and private rental opportunities.

The District's participation in the Cooperative Funding Agreement will allow for participation in the planning and design process to ensure redesign best meets changing needs of our programs.
